

Art(e)facts '21, Open Call

Announcement of results

Art(e)facts is pleased to announce the results of the open call for the artistic residencies that will integrate the first edition of the biennial, under the theme Supernatural Togetherness.

Following the number and high quality of the proposals submitted to the competition, the jury decided to reconsider the position initially predicted, opening the possibility to select four winning proposals. Their authors will join the invited artists, which in six different points of the territory will develop artistic practices and establish a network between art and handicraft, linked to the region ecosystem of the territory.

The winning proposals are characterised by national and international eclecticism and stand out for the creation of scenarios and new lines of reflection, which allow the region legacy to be preserved and its future to be renewed as heritage for new generations.

SELECTED PROJECTS

[Andrea Canepa and Vanessa Foster](#)

[Anja Lapatsch and Annika Unger](#)

[Diogo Rodrigues, Fernando Pimenta and João Diogo Oliveira](#)
